

Széles Renáta: April-May report

April:

I had English conversations with Julia S. on Messenger. I made masks for the school and some Easter DIY gadgets for the Easter Egg competition. In my free time I painted, watched films, learned English and studied for my exam. I walked outside with Romane, we shared a lot of things about our countries, exchanged experiences, memories, learned about similarities and differences (languages, food, traditions..)

May:

I had individual online sessions with Karolina C. on Fridays. On Mondays I had the same with Marta G. We could discuss a lot of things and talk about the topics of our interests. We made an EKS Questionnaire and answered the questions from students. The result has been posted on the EKS website. In the end of May we met some other EKS volunteers who visited Wroclaw. We could also leave Wroclaw (after a long quarantine) and travel a bit, so we had a short trip to Walbrzych Castle.
